## Education

### St. Francis Institute of Technology

*B.E Information Technology*

2022 – 2026

Mumbai, India

### Lokmanya College of Science

*Class 12th - 80.67%*

2020 – 2022

Mumbai, India

### St. John XXIII

*Class 10th - 89.40%*

2020

Mumbai, India

## Experience

### EasyHyre

*Web Developer*

June 2024 - July 2024

*Remote*

- Participated in engineering and developing full-stack test assessment applications using React, Node.js, Express, and MongoDB.
- Designed the frontend elements and made Help Section for Application Using React.
- Regulated version control with branches and reviewed pull requests on GitHub.

## Projects

### ConnectEase | React, MongoDB, NodeMailer, Node.js, Express Js

GitHub | Live Demo - August 2024

- Developed a user-friendly application for managing contacts, including adding, editing, and emailing contacts with ease.
- Utilized React for building an interactive and responsive frontend, ensuring smooth user experience across devices.
- Implemented a Node.js backend with MongoDB for secure and efficient data storage and retrieval.
- Integrated NodeMailer to allow users to send contact information directly to any email address.

### QuizCards | React, Node.js, ExpressJs, Prisma ORM, PostgreSQL, MUI

GitHub | Live Demo - August 2024

- Developed a React-based Quizcard application that enables users to view, flip, and navigate through a set of Quizcards.
- Implemented a user-friendly interface allowing users to flip cards to reveal answers or definitions.
- Built an internal dashboard for admins to manage Quizcards, including features to add, edit, and delete Quizcards.
- Utilized Prisma as the backend ORM and PostgreSQL for data storage to ensure efficient and scalable data management.

### Foodapp-Swiggy | JavaScript, React, Redux, Firebase, TailwindCSS

GitHub - January 2024

- Developed an interactive and intuitive online food ordering website using React, enabling seamless navigation and order placement for users.
- Implemented dynamic user interfaces and state management in React, allowing real-time updates of menu items, cart contents, and order status for enhanced user engagement and satisfaction.

## Technical Skills

**Languages:** C++, Python, Java, JavaScript, TypeScript, HTML/CSS, SQL

**Developer Tools:** VS Code, Eclipse, Git, GitHub, AWS, Docker

**Technologies/Frameworks:** React, Redux, MongoDB, PostgreSQL, Firebase, Node.js, Prisma ORM, TailwindCSS

## Relevant Coursework

- |                   |                       |                     |                         |
|-------------------|-----------------------|---------------------|-------------------------|
| • Data Structures | • Algorithms Analysis | • Operating System  | • Systems Programming   |
| • OOPS            | • Database Management | • Computer Networks | • Computer Architecture |

## Leadership & Extracurricular

### TEDx SFIT

*Coordinator*

Aug 2023 – Mar 2024

Mumbai, India

- Successfully coordinated and organized TEDx events, facilitating speaker engagement, event logistics, and audience participation.

### SFIT Alumni Association

*Technical Executive*

Aug 2023 – May 2024

Mumbai, India

- Organised Annual Alumni Meet and maintained records of all attendees.
